ABOUT US

Great products aren't manufactured; they're crafted!

As an independent manufacturer, we're able to focus on one thing — making the best products in the market. To us, "best" means high quality with consistent effects every time. Our commitment to quality begins with the deliberate selection of the best available inputs from suppliers who share our artisanal philosophy.

We're not building a brand for the masses — we're curating the products we want to consume ourselves.

MOONRISE KITCHEN

Real food tastes better. Moonrise Kitchen brings an artisanal, farm-to-table philosophy to cannabis edibles — stripping away the artificial and celebrating the honest.

Cookie Bites

SMALL-BATCH EDIBLES

Real food tastes better! Our small-batch cookie bites take you back to the basics: farm-fresh butter, rich Belgian chocolate, and honest, classic flavors. We've stripped away the artificial preservatives common in other edibles to create a superior product that honors its ingredients. They come in perfectly scored squares making them easy to dose, but with ingredients this good, the hardest part is stopping at one!

EMMALEAF CONCENTRATES

Our house concentrate line represents the pinnacle of our extraction craft — built on patience, low-temperature technique, and an obsessive attention to botanical purity.

EmmaLeaf Shatter

CURED | LOW-TEMP PURGE

EmmaLeaf shatter is the perfect shade of golden honey with the unmistakable, glass-like "snap." Our process isn't rushed by a clock; it's guided by the plant. We start with premium cured plant material, refined under vacuum at low temperatures. This "low and slow" hand-tended purge takes a little longer, but for a profile this clean and a finish this stable, it's worth the wait!

EmmaLeaf Live Resin

FLASH-FROZEN | FULL-SPECTRUM

EmmaLeaf Live Resin is a study in botanical purity! Diamonds suspended in a vibrant, terpene-rich sauce. We start with premium flash-frozen plant material to preserve the full spectrum of delicate trichomes. It's a small-batch extraction designed for intense flavor and a fragrance that stands in a class of its own.
